Form 2-G
NARRATIVE
For Period Ending January 31, 2015

Please provide a brief description of any significant business and legal actions taken by the debtor, its creditors, or the court during the reporting period, any unusual or non-recurring accounting transactions that are reported in the financial statements, and any significant changes in the financial condition of the debtor which have occurred subsequent to the report date.

During the fiscal period ending January 31, 2015, the Debtor was no longer operating any of its retail locations. Remaining corporate staff were focused on the final reconciliation of the going-out-of-business sale results pursuant to the terms of the Agency Agreement with Great American, reporting requirements, claims reconciliation, and managing ZA One operations to ensure that all conditions to the sale agreement are satisfied.

In the fiscal period ending January 31, 2015, deferred rent assets attributable to various exited leases were written off, resulting in a significant one-time negative Rent and Leases expense – contributing to significant book operating income. In addition, store-level assets were written off during the period resulting in a significant one-time non-operating losses.

On March 3, 2015 the Competition Commission of South Africa granted approval without conditions for the sale of ZA One to Truworhs.

On March 10, 2015, an Order was entered approving the 9019 settlement among the Debtor, the Committee, the Secured Noteholders, Mid-America, Overseas, Inc. and Target Ease International.

BB&T Merchant Services is committed to bringing you the latest technology as well as helping to protect you from potential risk and loss to your business. This is why we offer countertop, Bluetooth, and wireless terminals right now that allow you to accept chip card and contactless payments such as Apple Pay and Google Wallet.

Contactless technology will speed up your transaction process and allow customers multiple options to pay. These transactions are actually more secure since the card number is never stored.

Enabling your equipment to accept chip cards will again allow you to support how your customers want to pay and also help protect your losses. Today, if there is card-present counterfeit or duplicate card fraud the card issuer always takes on that liability and chargeback. On October 1, 2015, if you accept payments in a card-present environment and do not have a terminal, virtual terminal, mobile device or point-of-sale system that is enabled to process chip cards; you may see an increase in fraud, liability, and chargebacks.

Please know that protecting your customers and your business has never been more important to us. We recognize that you have many options and are constantly solicited by other providers. With this in mind, please know that if you are a BB&T Merchant Services client you can contact us if you receive a written competitive offer for a new credit card terminal, mobile processing solution, tablet solution, point-of-sale software, revised pricing or any other new account feature so that we can review it with you. Our BB&T Merchant Assurance Program assures you that BB&T will provide a comparable product or pricing solution (one per year) or we will waive your early termination penalty should you choose to close.

We welcome the opportunity to answer questions you may have especially regarding new technology, upgrades, and the chip card liability shift. You may contact us at 877-672-4228 from 8:30am-9:00pm ET, Monday through Friday.

We will investigate your complaint/concern and promptly take corrective action. If your periodic statement shows transfers that you did not make, tell us at once. If you do not inform us within sixty (60) days after the statement was mailed to you, you may not get back any money you lost after sixty (60) days. This will occur if we can prove that we could have stopped someone from taking the money if you had informed us in time. If a good reason kept you from informing us, we will extend the time periods.

Important information about your Constant Credit Account

Once advances are made from your Constant Credit Account, an **INTEREST CHARGE**

will automatically be imposed on the account's outstanding "Average daily balance." The **INTEREST CHARGE** is calculated by applying the "Daily periodic rate" to the "Average daily balance" of your account (including current transactions) and multiplying this figure by the number of days in the billing cycle. To get the "Average daily balance," we take the beginning account balance each day, add any new advances or debits, and subtract any payments or credits and the last unpaid **INTEREST CHARGE**. This gives us the daily balance. Then we add all of the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "Average daily balance."
